RE: In person services

Dear Families,

Due to the rise/resurgence in Covid-19 in our community, the greater impact that the delta variant is having on children under 12 who can not be vaccinated, and our extreme desire to keep families and staff safe, we will only do in-person visits if absolutely necessary. More than 95% of the Covid hospitalizations are among unvaccinated people, and the staff at SSP2P does not want to contribute to this number, especially in children.

As always, we will continue to provide the best and most comprehensive services possible, given the current state of emergency we find ourselves in.

We hope you will continue with your virtual services and work with your team to determine if there is an absolute need for in-person contact. Please join us in the effort to bring safety back to our community.

If you have questions or issues, please contact Executive Director, Kim Smith at ksmith@ssp2p.org or 360.352.1126 X 108.

Sincerely,

Kim Smith, M.S. FSHS
Executive Director
